Introducing **NuvoVi**, a medically formulated meal replacement that provides protein, carbohydrates, fats and vitamin and minerals to enhance nutrition status as part of an obesity care plan.

Suitable for people:

- Losing weight (voluntary or involuntary)
- At risk of losing muscle mass
- Preparing for and recovering from a surgery, illness or injury
- With a low appetite
- Presenting with or at risk of malnutrition

NuvoVi has done wonders for me! I see a big difference in my energy level, my cravings and have peace of mind that I'm getting the nutrition I need to stay strong and keep me going
